Section 1: Hands-On Demonstration

Part 1: Plan the Physical Configuration of the Firewall

10. Make a screen capture showing the completed General tab of the Planner.

Physical Configuration	Settings	Comments
Hostname	card12-pfsense	04/05/25
Domain	localdomain	
Primary DNS Server	8.8.8.8	Do Not Override DNS
Secondary DNS Server	8.8.4.4	Do Not Override DNS
Time Server Hostname	0.pfsense.pool.ntp.org	
Time Zone	Etc/GMT-7	
Admin Password	P&ss9999	

Configuring Firewall Interfaces with pfSense (3e)

Network Security, Firewalls, and VPNs, Third Edition - Lab 05

25. Make a screen capture showing the **completed WAN tab** of the **Physical Configuration** worksheet.

The screenshot shows the OpenOffice Calc application with the 'Physical Configuration' worksheet. The 'WAN' tab is selected, and the 'Do not block' option is chosen for blocking RFC1918 and bogon networks. The table lists various network settings for the WAN interface, including IP address, subnet mask, upstream gateway, and blocking options.

	A	B	C
1	Physical Configuration	Settings	Comments
2	Description		WAN
3	Interface Type	Static	
4	MAC Address		Not Required
5	MTU		Default
6	MSS		Default
7	IP Address	202.20.1.1	Ipv4
8	Subnet Mask	24	
9	Upstream Gateway	202.20.1.2	
10	DHCP Hostname		
11	PPPoE Username		
12	PPPoE Password		
13	PPPoE Service name		
14	PPPoE Dial on demand		
15	PPPoE Idle timeout		
16	PPTP Username		
17	PPTP Password		
18	PPTP Local IP Address		
19	pptplocalsubnet		
20	PPT Remote IP Address		
21	PPTP Dial on demand		
22	PPTP Idle timeout		
23	Block RFC1918 networks		Block
24	Block bogon networks		Do not block
25			
26			

Configuring Firewall Interfaces with pfSense (3e)

Network Security, Firewalls, and VPNs, Third Edition - Lab 05

27. Make a screen capture showing the **completed LAN tab** of the **Physical Configuration worksheet**.

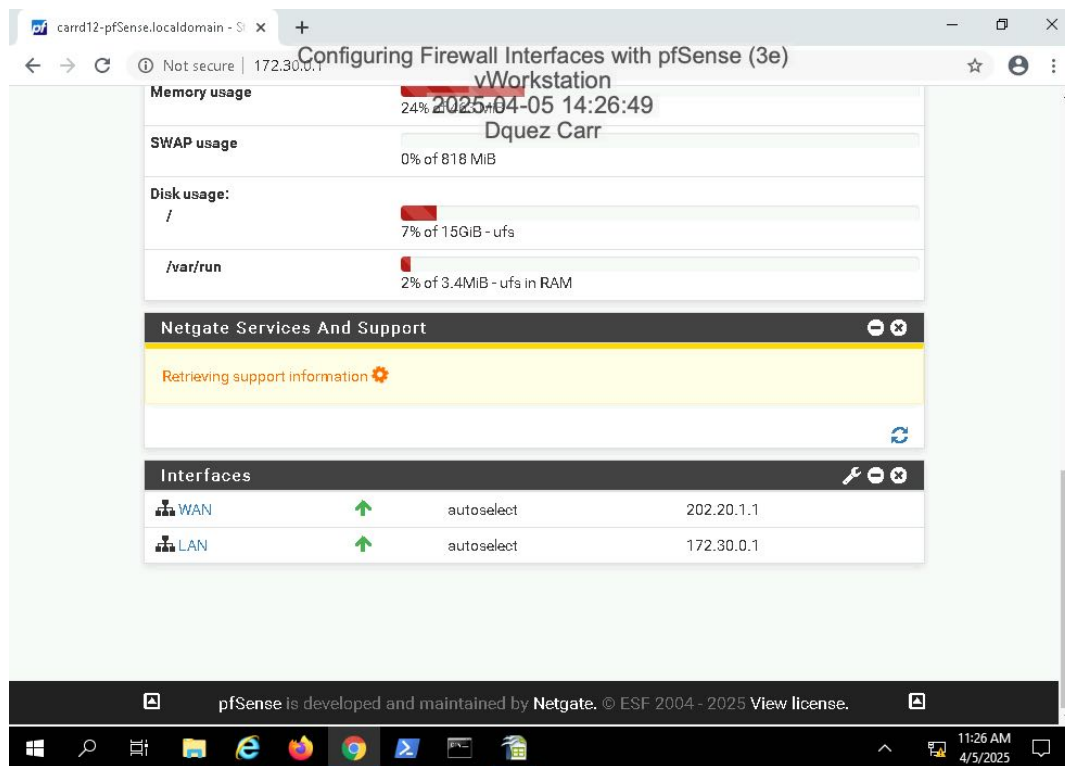

The screenshot shows the OpenOffice Calc application with the file 'PFSENSE-FW-PHYSICAL-PLANNER.ods' open. The 'Physical Configuration' worksheet is active, and the 'LAN' tab is selected. The table contains the following data:

	A	B	C
1	Physical Configuration	Settings	Comments
2	Description		LAN
3	Interface Type	Static	
4	MAC Address		Not Required
5	MTU		Default
6	MSS		Default
7	IP Address	172.30.0.1	Ipv4
8	Subnet Mask	24	
9	Upstream Gateway		Not Required
10	Block RFC1918 networks		Do not block
11	Block bogon networks		Do not block

26			

The Properties sidebar on the right shows the 'Text' and 'Cell Appearance' tabs. The 'Text' tab is active, showing settings for the selected cell (C11), including font (Lato), size (11), and alignment (Left). The 'Cell Appearance' tab shows settings for the cell background and border.

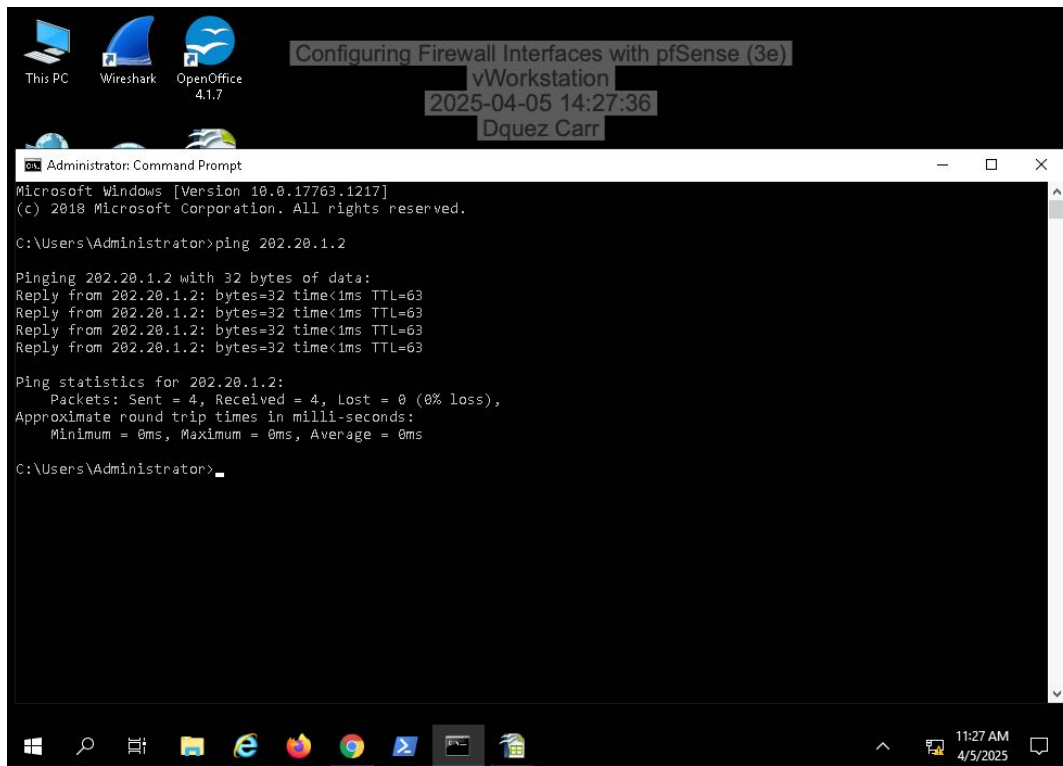

Part 2: Configure the LAN and WAN Firewall Interfaces

36. Make a screen capture showing the LAN and WAN interfaces on the pfSense WebGUI dashboard.

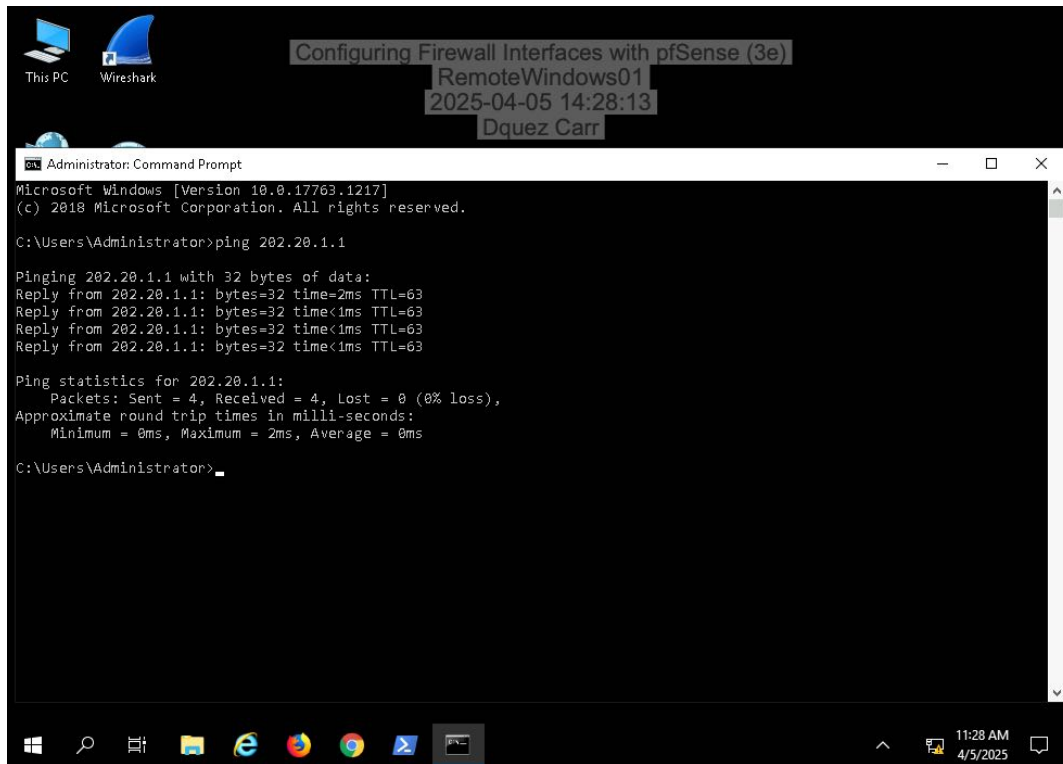

Part 3: Verify the Firewall Implementation

3. **Make a screen capture** showing the **successful ICMP request** to pfSense's upstream gateway.

8. Make a screen capture showing the **successful ICMP request to the pfSense WAN interface**.

Section 2: Applied Learning

Part 1: Plan the Physical Configuration of the Firewall

4. Make a screen capture showing the **completed DMZ tab** of the **Physical Configuration worksheet**.

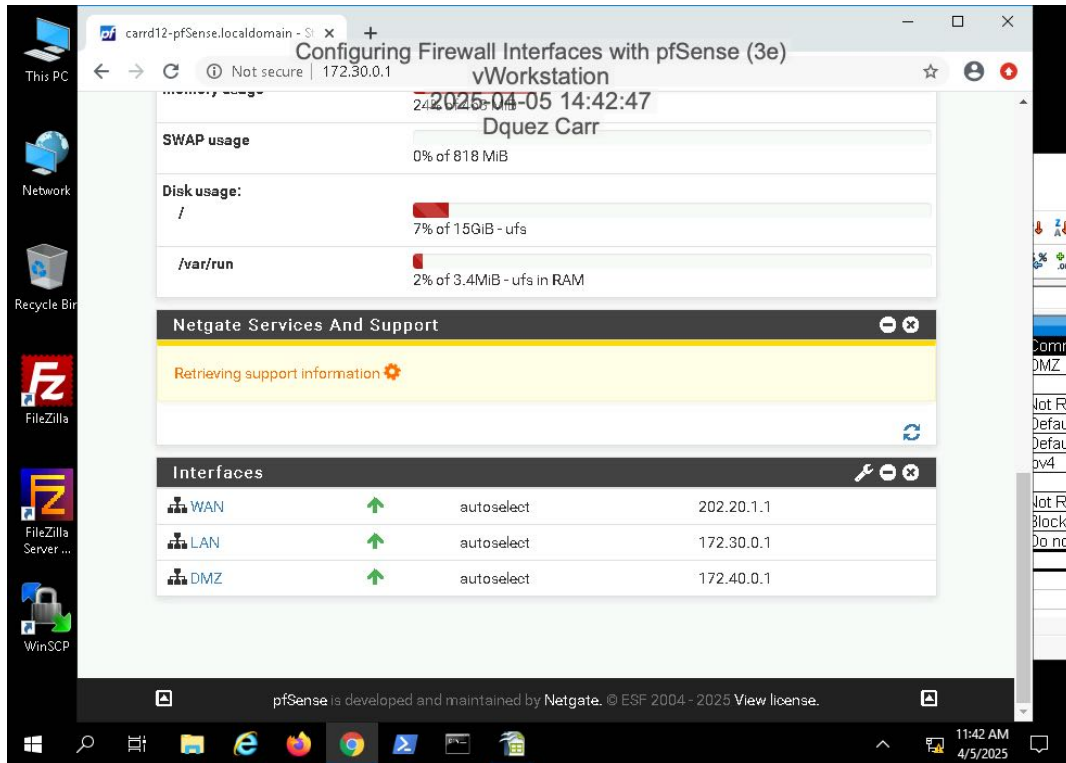

The screenshot shows the OpenOffice Calc application with a spreadsheet titled "Physical Configuration". The spreadsheet has three columns: A (Description), B (Settings), and C (Comment). The data is as follows:

1	Physical Configuration	Settings	Comment
2	Description		DMZ
3	Interface Type	Static	
4	MAC Address		Not Required
5	MTU		Default
6	MSS		Default
7	IP Address	172.40.0.1	Ipv4
8	Subnet Mask	24	
9	Upstream Gateway		Not Required
10	Block RFC1918 networks		Block
11	Block bogon networks		Do not block

23			
24			
25			
26			

The spreadsheet is part of a file named "carrrd12_PFSense-FW-PHYSICAL-PLANNER.ods". The "DMZ" tab is selected. The "Properties" panel on the right shows the "Text" properties for the selected cell, including font (Lato), size (11), and alignment (Left). The status bar at the bottom indicates "Sheet 4 / 4" and "PageStyle_DMZ".

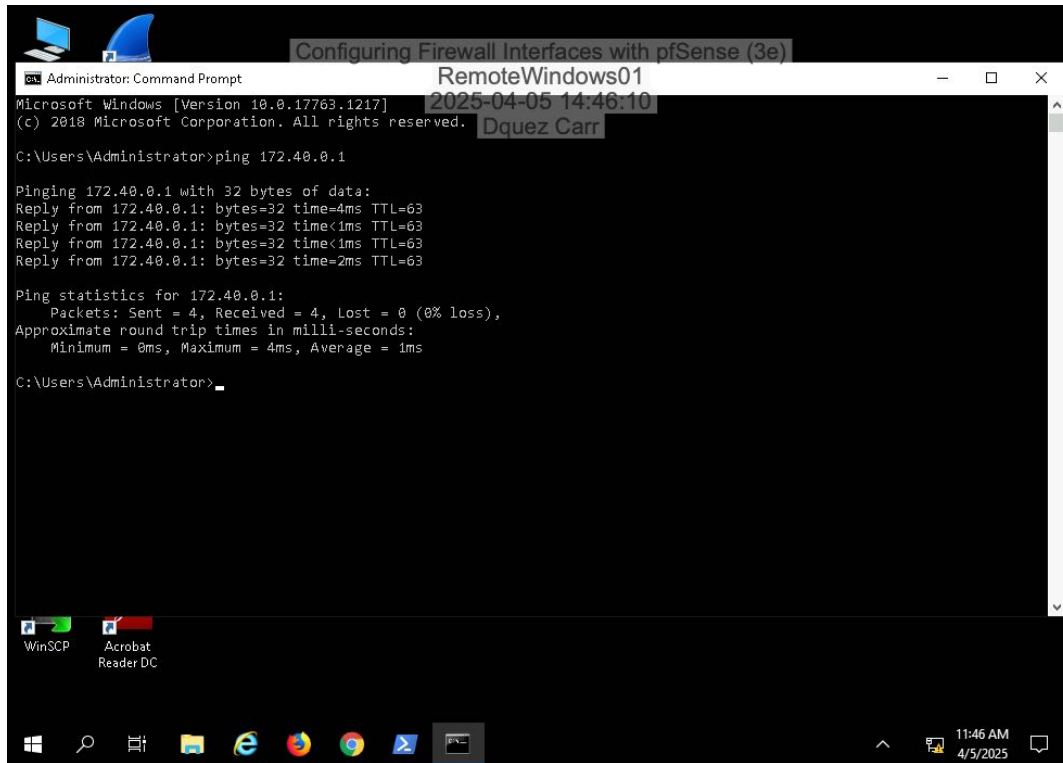

Part 2: Configure the DMZ Firewall Interface

9. Make a screen capture showing the **DMZ** interface on the pfSense WebGUI dashboard.

Part 3: Verify the Firewall Implementation

4. Make a screen capture showing the **successful ICMP request to the DMZ interface**.

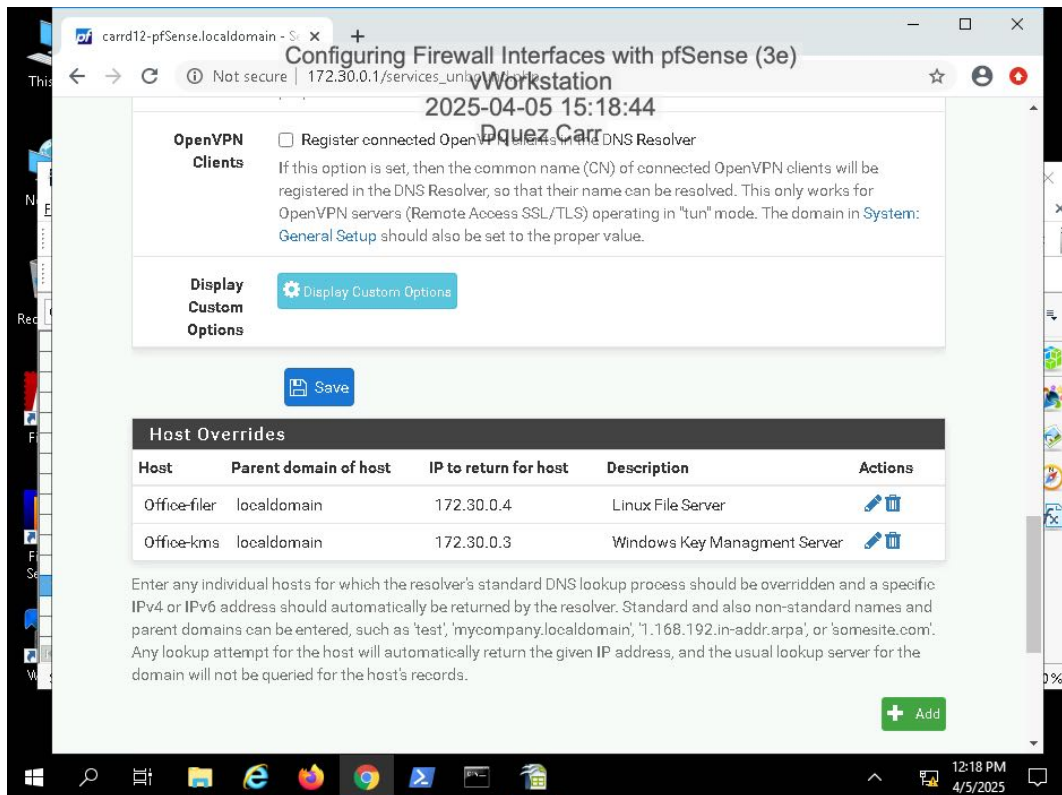

8. Make a screen capture showing the **corporationtechs.com** web page on the **RemoteWindows01** machine.

Section 3: Challenge and Analysis

Part 1: Configure and Test Split DNS on pfSense

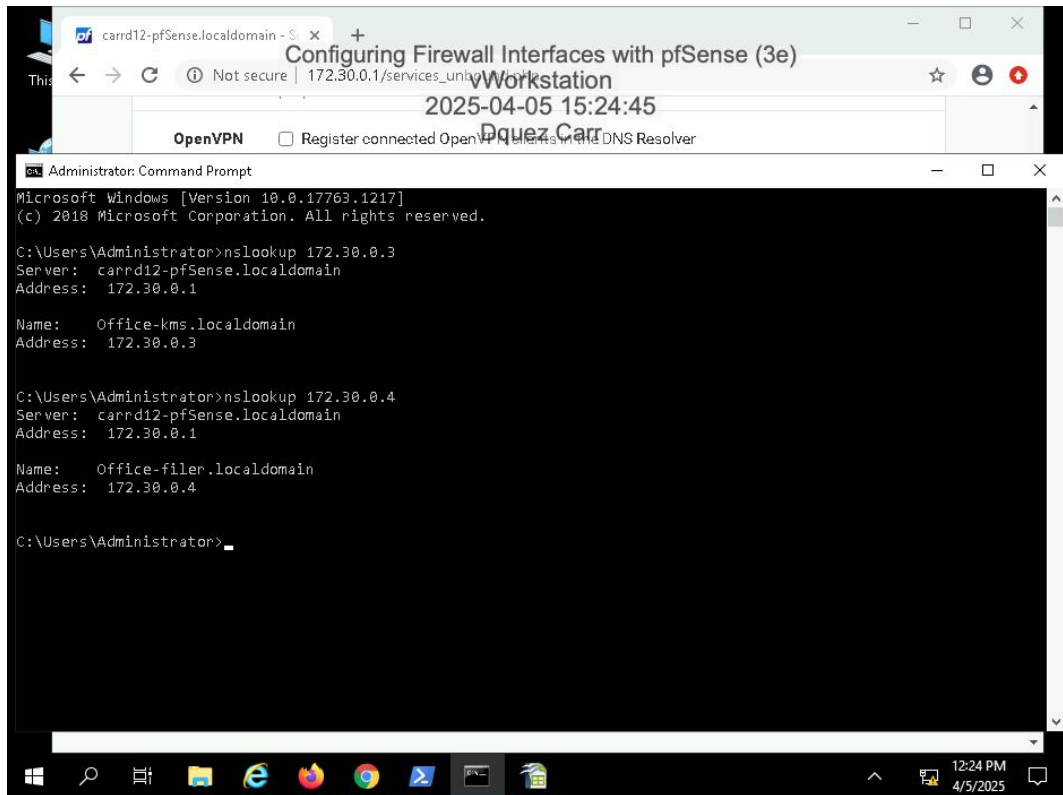

Make a screen capture showing your Host Override entries in the DNS Resolver.

Configuring Firewall Interfaces with pfSense (3e)

Network Security, Firewalls, and VPNs, Third Edition - Lab 05

Make a screen capture showing a successful nslookup test for both DNS entries.

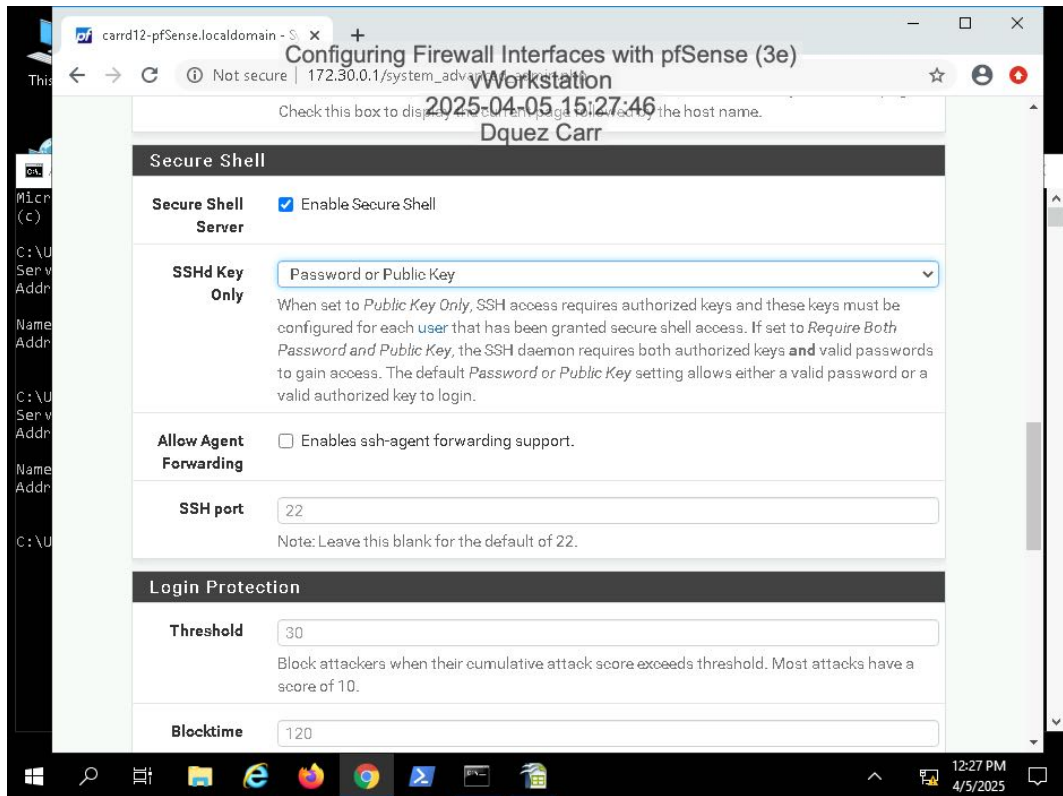

Part 2: Enable and Test Secure Shell Access on pfSense

Configuring Firewall Interfaces with pfSense (3e)

Network Security, Firewalls, and VPNs, Third Edition - Lab 05

Make a screen capture showing the enabled option for SSH access.

Configuring Firewall Interfaces with pfSense (3e)

Network Security, Firewalls, and VPNs, Third Edition - Lab 05

Make a screen capture showing your **successful SSH connection**.
